

Criminal Justice Technology AAS Degree (CJT3)- 60 Credit Hours

Program Description:

The Criminal Justice Technology associate degree program is a sequence of courses that prepares students for criminal justice professions. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of criminal justice theory and practical application necessary for successful employment. Completion of the Criminal Justice Technology associate degree does not ensure certification of officer status in Georgia. Students must seek such certification from the Peace Officer Standards and Training (P.O.S.T.) Council. Prospective students need to know that they will be required to meet all applicable employment requirements, including satisfactory background and criminal checks, in order to qualify for some internships and to gain employment in most law enforcement settings. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level opportunities include corrections, security, investigation, police and sheriff’s patrol, administration, and other enforcement areas. Starting salaries are approximately \$41,610 per year.
